

Wairoa District Council

Electing 6 Councillors

Min JOHANSEN

My principal place of residence is in the Wairoa District Council area.

I'm approachable and endeavour to answer any questions that are put to me.

I know how the system works and given that there are some major developments happening within our area, I know my experience will be valuable to the new Council.

The community needs someone to represent them that has their feet firmly on the ground.

I offer a stable and common sense approach to what lies ahead.

I'm the fourth generation here and I totally believe in Wairoa.

I've been involved in community organisations as well as being an employer for many years.

For the last six years I've been a Councillor for Wairoa District Council.

I am married and have three adult sons. All five of us completed our schooling here.

My goals on Council are:

- Promoting Wairoa to bring more industry and employment here. This is vital.
- Keeping rate increases realistic.
- Promoting tourism.
